

School is back in session for 2018-2019! We are excited to announce that after an exceptional rebuilding year last year, Junior Achievement (JA) will be back in our local schools again this year!

JA programs equip students with critical life skills like leadership, teamwork, perseverance and innovative thinking. In fact, nearly 9 out of 10 JA students agree that JA strengthened their teamwork, problem solving, decision making, interpersonal communications and critical thinking skills.

Our ability to grow our JA program and positively impact the lives of our students depends on the volunteer support and financial generosity of our local businesses and entrepreneurs. Last year we re-introduced JA into our community. Building from that success, it is our goal for the 2018-2019 school year to continue to expand JA into more classrooms and grade levels, reaching 46 classrooms within the Hutchinson School District.

We encourage you to consider how you can support JA in Hutchinson. Is your business looking for ways to volunteer in the community? Would your business consider sponsoring a JA classroom? A donation of \$220 covers the supplies needed for one classroom.

For more information about JA, how to donate to the local program or to volunteer, please contact any of our board members:
